HP ProBook 4720s Notebook PC

Business Style

Stylish affordability in a 43,9 cm (17.3") diagonal notebook with security and productivity features to help your small business.

Windows®. Life without Walls™. HP recommends Windows 7.

Stylish design and out of box productivity
The HP ProBook 4720s offers refined simplicity in an affordable package. The brushed aluminum finish combines good looks with durability, and includes software such as Face Recognition for easy log-in, and Corel Home Office [1] for office productivity.

Advanced multimedia support
The HP ProBook 4720s features high-performance discrete ATI Mobility Radeon graphics with dedicated video memory for more graphics intensive environments. Additionally, the notebook comes loaded with the new ArcSoft TotalMedia Suite that allows you to play, edit and create video and audio files. New "multi-media controls" for video control such as play, rewind, fast-forward are now integrated into keyboard, simplifying work with video and audio files. And experience life in high-definition [2] with the HDMI port that allows you to connect directly to high-definition displays.

Built to conserve
HP Power Assistant [3] lets you take control with total visibility over your notebook PCs reported power consumption! This easy-to-use tool allows you to conserve power, stretch battery run-time, accurately monitor your reported power needs and report workforce power consumption.

Built to simplify
HP QuickLook 3 [4] provides read and write capability of email, calendar, task and contact information in seconds at the touch of a button, without having to boot up. And HP QuickWeb [5] grants access to the web in seconds… even if your notebook is turned off.

Built to protect
The new spill-resistant keyboard with drains helps protect sensitive electronics and key components from minor spills. And HP 3D DriveGuard helps protect your notebook's hard drive against impact or drops using a three-axis accelerometer which detects any sudden movement and initiates protective action, so your critical information is protected.

THE COMPUTER IS PERSONAL AGAIN.
